Delivering Excellence in Complex Logistics Environments

ABOUT US

Specialized Logistics Solutions (SLS) stands at the forefront of international logistics management, delivering critical supply chain solutions in the world's most challenging operational environments.

Founded on the principles of reliability, innovation, and unwavering commitment to client success, we specialize in providing comprehensive logistics support for organizations operating in high-risk regions, emergency response scenarios, and complex international markets.

VISION

To be the trusted partner of choice for organizations operating in high-risk regions, humanitarian missions, and specialized industries that require unwavering reliability and expertise.

MISSION

To bridge the gap between critical needs and reliable delivery, ensuring that essential supplies, equipment, and services reach their destinations regardless of geographical, political, or operational complexities.

VALUES

01 **Reliability**

We deliver on our commitments, every time, regardless of the challenge.

02 **Excellence**

We set the highest standards in everything we do — from operations to client management.

03 **Adaptability**

We adjust swiftly and effectively to evolving environments, ensuring continuity for our clients.

04 **Diligence**

We are meticulous and persistent, ensuring that no detail is overlooked.

OUR PRODUCTS & SERVICES

WASH PRODUCTS

We provide water purification products, water storage solutions—including tanks and bladders—and comprehensive water testing equipment.

WAREHOUSES

Wide range of temporary and long-term warehouse structures that are easy to setup and built for durability.

PUMP EQUIPMENT

This includes submersible pumps, trash pumps, and industrial pumps, all designed for reliability in demanding conditions.

NON FOOD ITEMS

Focused on essential supplies for humanitarian operations, emergency response, and specialized industrial applications.

WASH OVERVIEW

Partnership with Butyl Products

SLS maintains a strategic partnership with Butyl Products, a leading manufacturer of water purification and storage solutions. Through this alliance, we provide comprehensive WASH equipment including advanced water storage systems, flexible bladders, rigid tanks, and specialized water testing equipment.

Distribution Network

As exclusive distributors for P&G water purification solutions and Aquatabs in South Sudan. SLS offers unparalleled access to the world's most trusted water treatment products

Supply Chain Excellence

Through strategically positioned inventory and streamlined logistics processes, we ensure rapid deployment of water purification, storage, and testing equipment to any region.

WASH PORTFOLIO

Our Water, Sanitation and Hygiene portfolio addresses every aspect of water security in challenging environments.

WAREHOUSE OVERVIEW

Hallgruppen Partnership

Hallgruppen's innovative designs offer flexible storage solutions from small-scale temporary facilities to large-scale permanent warehouses, all engineered for easy assembly and long-lasting performance in challenging conditions. This strategic alliance provides access to durable, modular warehouse systems that can be rapidly deployed in any environment

Rapid Sourcing & Deployment

Our streamlined procurement system and pre-positioned inventory enable rapid mobilization of warehouse structures to any global location.

Expert Installation Team

Our on-ground warehouse specialists bring over 25 years of combined experience in warehouse installation and deployment across diverse global environments.

WAREHOUSE PORTFOLIO

Which includes temporary structures for short-term projects, semi-permanent facilities for extended operations, and permanent installations designed for long-term industrial and commercial use.

PUMP OVERVIEW

Global High-Quality Network

SLS maintains a worldwide network of premium pump manufacturers and suppliers, ensuring access to the highest quality pumping equipment regardless of project location.

Multiquip Partnership

Multiquip's extensive range includes high-capacity trash pumps, submersible pumps, and specialized dewatering equipment designed for the most demanding applications.

Aussie Pumps Partnership

Aussie Pumps' reputation for manufacturing robust, reliable equipment perfectly aligns with SLS's commitment to delivering dependable solutions in challenging environments.

PUMP PORTFOLIO

Our pump portfolio encompasses submersible pumps for deep water extraction, trash pumps for debris-laden water handling, and industrial pumps for specialized applications across construction, mining, and emergency response operations.

RECENT PROJECTS

Water Purification Products (WASH)

In response to a critical water emergency in South Sudan, SLS successfully delivered 5,207 Aquatabs 67mg water purification tablets to the International Organization for Migration (IOM).

This emergency water treatment deployment demonstrated our capability to mobilize large-scale WASH solutions rapidly in high-risk environments.

The project showcased our established supply chains and strategic partnerships that enable immediate response to humanitarian crises.

CASE STUDY: LIFE-SAVING CHOLERA RESPONSE IN SOUTH SUDAN WITH CMMB

OVERVIEW

In response to a severe cholera outbreak in South Sudan, Specialized Logistics Solutions (SLS) supplied and delivered large volumes of P&G water purifier sachets to support the African Community Health Organization (ACHO) and Catholic Medical Mission Board (CMMB) in Juba and Renk counties.

KEY METRICS

JUBA COUNTY
12,036 households reached
6,018 boxes of P&G water sachets
Approx. **1,444,320 sachets** distributed

RENK COUNTY
10,784 households reached
2,260 boxes of P&G water sachets
Approx. **542,400 sachets distributed**

GERGER PAYAM
6,264 households reached
3,132 boxes of P&G water sachets
Approx. **751,680 sachets distributed**

RENK SOUTH PAYAM
4,520 households reached
2,260 boxes of P&G water sachets
Approx. **542,400 sachets distributed**

CHOLERA OUTBREAK

Juba County (Central Equatoria State)

- Population: approx. 526,000
- Reported: 7,326 cholera cases and 98 deaths

Renk County (Upper Nile State)

- Over 188,564 households, including a large influx of refugees and displaced persons

SLS ROLE IN THE RESPONSE

SLS managed the full procurement and delivery process for certified P&G water purifier sachets that met WHO and donor standards. This included coordinating all shipments into South Sudan, handling import documentation and customs clearance, and ensuring timely delivery.

COMMUNITY IMPACT

1

Increased Access to Safe Water

Door-to-door distributions provided each household with 120 sachets and clear instructions, helping families transition away from unsafe water sources.

2

Improved Household Health

Communities reported significant reductions in cholera symptoms and waterborne diseases after using SLS-supplied P&G water purifiers.

3

Empowered Communities

The steady supply of sachets enabled community health workers to conduct real-time water purification demonstrations, strengthening behaviour change.

WHY SLS MADE THE DIFFERENCE

SLS has deep expertise in sourcing certified WASH supplies such as P&G sachets that meet ISO, WHO, and UN agency standards. With established operations across South Sudan, Uganda, and Kenya, the company regularly works in high-risk, hard-to-reach environments. SLS provided full end-to-end logistics management, covering procurement, consolidation, import clearance, warehousing, and last-mile delivery.

RECENT PROJECTS

Multiquip Trash Pumps For Flooding

SLS delivered critical dewatering solutions to the United Nations Mission in South Sudan (UNMISS) through a comprehensive trash pump deployment.

This flood response project demonstrated our partnership with Multiquip to provide high-capacity pumping equipment capable of handling debris-laden flood waters in challenging operational environments.

The successful delivery showcased our ability to mobilize specialized pumping solutions rapidly for UN peacekeeping operations.

OUR UNIQUE APPROACH

Network of Trusted Partners

Through 35 years of operation in challenging regions, we have cultivated relationships with international organizations and local partners that enable us to operate effectively across diverse cultural and political landscapes.

Proven Reliability

Our track record speaks for itself—we deliver on our promises, meeting critical deadlines and maintaining the highest standards of service quality regardless of external challenges.

Unmatched High-Risk Expertise

Unlike traditional logistics providers, we specialize in challenging operational environments.

Our team members have hands-on experience in conflict zones, post-disaster areas, and regions with compromised infrastructure, giving us insights that enable successful operations where others cannot venture.

Client-Centric Partnership

We view each client relationship as a strategic partnership, working closely to understand unique needs and develop solutions that exceed expectations.

OUR PARTNERS

Butyl Products UK

Leading distributor of water purification and storage solutions including Aquatabs water treatment tablets.

Multiquip UK

Renowned supplier of construction and industrial pumping equipment for demanding applications.

Hallgruppen

Innovative warehouse structure manufacturer offering modular storage solutions for rapid deployment.

Aussie Pumps

Australian-engineered pumping solutions built to withstand extreme conditions and challenging environments.

LOOKING AHEAD

“Our mission is to remain at the forefront of logistics in high-risk environments—empowering clients to achieve their objectives, no matter the challenge.

We understand that our clients face constantly evolving demands. That is why we remain proactive—adapting to new regulations, leveraging emerging technologies, and expanding capabilities into new regions. This agility ensures that SLS continues to deliver where others cannot.

Looking ahead, we are committed to growing our role as a trusted partner for organizations operating in the world’s most demanding environments.

Guided by our founding principles of safety, reliability, and client success, SLS will continue to provide solutions that anticipate challenges and drive results.”

Ken Miller
